Summary

Computer Science graduate with a strong interest in system processes and project management. Experienced in system evaluation, project operations, and technical documentation. Detail-oriented and adaptable problem solver with strong drive for deep diving into complex issues and collaborating across technical and non-technical teams.

Education

Universitas Pakuan

Bogor

Bachelor Degree, Computer Science. GPA: 3.79/4.00

Sep 2022 – Jul 2026

Thesis: *Multimodal Deep Learning Architecture Implementation Using DenseNet-121 and MLP for Stroke Type Classification.*

Experience

AfterOffice Academy

Remote

Class Manager

Aug 2026 – Sep 2026

- Managed daily operations for 2 online classes with 60+ total participants.
- Moderated 1 live class of 30+ students and facilitated speaker-participant interaction.
- Coordinated documentation and follow-up to keep program delivery on track.

Scale Labs

Remote

AI System Evaluator

Aug 2026

- Evaluated and benchmarked AI model responses based on accuracy, relevance, and logical flow.
- Compared audio and text data against criteria to flag errors for quality control.
- Exceeded QA performance target by 93.5% while maintaining high-quality standards.

SMPN 3 Bogor

Bogor

Teaching & Administration Staff Intern

Jul 2025 – Sep 2025

- Taught informatics to 30+ junior high school students and monitored learning progress.
- Managed school administrative duties, including organizing student data records and processing documents.
- Developed interactive learning media as a final internship project to support classroom activities.

Skills

- **Technical:** Python, SQL, Draw.io, Figma, Jira, ClickUp.
- **Core Competencies:** System Analysis, Quality Assurance, Technical Documentation, Project Coordination.
- **Soft Skills:** Curiosity-Driven Learning, Deep Dive Problem Solving, Attention to Detail, Cross-functional Communication, Adaptability.
